

## SOLAR LANTERN : FAMILY

- 1) Power source: AC 110 – 250V, DC 6V
  - 2) Charging time: 12 hours approx
  - 3) Duration time: 6 hours approx when fully charged
  - 4) Rechargeable 6V / 4Ah lead-acid battery, 500 times
  - 5) Tube: 9W energy saving fluorescent U-tube, 3000 hours
  - 6) Over-charging and Over-discharging protector indicator
  - 7) 2,5W/3W multi-crystalline solar panel (optional)
  - 8) Packed in Color box / 8 pcs/ctn. N.W/G.W 27/29KGS
  - 9) Carton dimensions: 69,5x57,5x31CM
  - 10) 1 Year Warranty
- 

## SOLAR LANTERN : PROFESSIONAL

- 1) Power source: AC 110 – 250V, DC 6V
  - 2) Charging time: 12 hours approx
  - 3) Duration time: 8 hours approx when fully charged
  - 4) Rechargeable 6V / 4Ah lead-acid battery, 500 times
  - 5) Tube: 7W energy saving fluorescent U-tube, 3000 hours
  - 6) Charging indicator
  - 7) 110/220V AC adaptor and car plug included
  - 8) 2,5W/3W multi-crystalline solar panel (optional)
  - 9) Packed in Color box pcs/ctn. N.W/G.W 10/11KGS
  - 10) Outer carton dimensions: 64x32x48CM
  - 11) 1 Year Warranty
- 

## SOLAR LANTERN : THE BLUE LAMP

- 1) Power source: AC 110 – 250V, DC 6V
  - 2) Charging time: 12 hours approx
  - 3) Duration time: 8 hours approx when fully charged
  - 4) Rechargeable 6V / 2,5Ah lead-acid battery, 500 times
  - 5) Tube: 7W energy saving fluorescent U-tube, 3000 hours
  - 6) Charging indicator
  - 7) 110/220V AC adaptor and car plug included
  - 8) 2,5W/3W multi-crystalline solar panel (optional)
  - 9) Size: Diameter 130MM. Height 255MM
  - 10) Packed in Color box / 8 pcs/ctn. N.W/G.W 11/13,5KGS
  - Outer carton dimensions: 69x36,5x35,5CM
  - 11) 1 Year Warranty
- 

## SOLAR LANTERN : CAMPING

- 1) Power source: AC 110 – 250V, DC 6V
- 2) Charging time: 15 hours approx
- 3) Duration time: 10-12 hours approx when fully charged
- 4) Rechargeable batteries: 4 pcs 1800mah NI-CD battery
- 5) Light Source: 16 pcs super bright LED, Lifetime 100.000 hours
- 6) Charging indicator
- 7) 110/220V AC adaptor and car plug included
- 8) 1,5W multi-crystalline solar panel (optional)
- 9) Size: Diameter 83MM. Height 208MM
- 10) Packed in Color box / 24 pcs/ctn. N.W/G.W 10/11,5KGS
- Outer carton dimensions: 60x24x44,5CM
- 11) 1 Year Warranty

## **SOLAR TORCH : PROFESSIONAL**

- 1) Aluminium Alloy Body, Anode hardening galvanization
  - 2) Charging time: 6 hours approx
  - 3) Duration time: 8 hours approx when fully charged
  - 4) 3 pcs Ni-CD rechargeable battery, 500 times
  - 5) 7 pcs super bright LED (11,9 lumens) 100.000 hours
  - 6) Can be seen in 1KM with 50M lightning range
  - 7) 0,40W mono-crystalline solar panel
  - 8) Torch size: 3,6 x 17CM
  - 9) Packed in Colour box / 100 pcs/ctn. N.W/G.W 17/18KGS
  - 10) 1 Year Warranty
- 

## **SOLAR TORCH : PROFESSIONAL XL**

- 1) Aluminium Alloy Body, Anode hardening galvanization
  - 2) Charging time: 6 hours approx
  - 3) Duration time: 8 hours approx when fully charged
  - 4) 3 pcs Ni-CD rechargeable battery, 500 times
  - 5) 10 pcs super bright LED (17 lumens) 100.000 hours
  - 6) Can be seen in 2KM with 70M lightning range
  - 7) 0,45W mono-crystalline solar panel
  - 8) Torch size: 5,75 x 24CM
  - 9) Packed in Colour box / 80 pcs/ctn. N.W/G.W 29,5/31,5KGS
  - 10) 1 Year Warranty
- 

## **SOLAR MOBILE : CHARGER I**

- 1) Solar multi power source case: One
- 2) Output connecting wire for mobile phones, digital cameras, CD, VCD & Walkman: One
- 3) 5 cell phone adapter plugs (Nokia/Ericsson/Samsung/Motorola/Siemens)
- 4) 2W multi-crystalline silicon solar panel
- 5) DC output: 5V and 6V
- 6) DC output 5V and 6V capable of supplying power to most types of mobile phones and rechargeable appliances like digital cameras, PDA etc
- 7) Charging while walking, high efficiency solar cells, mini size
- 8) Required charging time: 2 – 4 hours
- 9) Fashionable design
- 10) Great variety of terminals for different usage
- 11) All types rechargeable appliances, like digital cameras, PDS, etc.
- 12) 14x8,5x1,3CM / 20pcs/ctn. G.W 7,785KGS  
Carton dimentions: 50x35x28CM
- 13) 1 Year Warranty
